ADDITIONAL DETAILS

I know that each cat is an individual and I can care for him/her better if I know their little ways. This can include, for example: loves to be stroked but hates to be picked up, or is a little arthritic so finds jumping up onto a shelf difficult.

NOTES

Q. Cats are boarded entirely at the risk of their Owners. Veterinary attention will be sought should (in the opinion of the Cattery Owner) the Cat need it.

Should any costs be incurred the Client will reimburse the Cattery for such costs. This condition applies for this and all subsequent stays.
