

Prices at Martlets Cattery will be increased as below from 1st April 2022. Martlets is coming back strongly after the dual challenges presented by the Covid 19 pandemic and the unprecedented rises in fuel prices. However, we are now unable to absorb any further price increases. Every service and commodity used to provide our caring service has increased in price to us, from wages, to electricity and food costs. It has become apparent that it is impossible to provide clean, cosy pens, food just as each individual puss cat likes it, medical requirements met in full and frequent staff attendance in cattery for cuddles without these measures.

1 cat in double pen - £13.25 per day or part thereof.

2 cats from same household in double pen - £21.50 per day or part thereof.

3 cats from same household sharing two double pens with intercommunicating cat flap – £27.25 per day or part thereof.

4 cats from the same household sharing two double pens with intercommunicating cat flap - £33 per day or part thereof.

Food (except for veterinary diets and foreign foods) and heating (as appropriate) is included in the price. Medicines administered free of charge.
